Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2,3-10,12-16 and 27-34 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Franchere et al.

See the appropriate paragraph of the 7/5/05 Office action.

The 9/9/05 amendments have added the new language "said well each comprising a bottom base ...". Franchere et al. teach in column 2 lines 50+ modular unit(10) with a bottom surface/wall(12) that has been read on the claimed "base".

New claim 28 specifies attachment by "sliding" the two walls against each other. This claims is directed to a method of use and does not positively claim means with this specialized function. It is well settled the method of intended use of an apparatus is of no patentable moment with respect to pending apparatus claims. Furthermore, the Office maintains the walls of Franchere et al. could be slid next to each other for engagement.

New claims 29-34 specify an optical window. The Office maintains Franchere et al. teach openings, such as (26), that read on the claimed optical window.

Response to Arguments

Applicant's arguments filed 9/9/05 have been fully considered but they are not persuasive.

Applicants' state the instant invention requires a plurality of wells for containing a sample whereas Franchere et al. teach modular units for supporting sample containers. The Office maintains Franchere et al. teach supporting samples and is indistinguishable from the pending claims.

Applicants' state claim 27 is drawn to a "flange" which is not taught by Franchere et al. The Office has read the claimed "flange" as a protruding edge, rim or collar which is met by the protuberances or buttons(30) taught by Franchere et al.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
